Product Description

SUBLOGIC SCENERY DISKS

database design by Michael Woodley

Hardware Requirements

SubLOGIC Scenery Disks are available in the following disk formats:

- IBM PC
- Commodore 64
- Atari 800/XL/XE

Software Requirements

For use with: Flight Simulator II (C64, Atari 800/XL/XE)
Microsoft Flight Simulator,
Version 2.0 or newer (IBM)
Jet (IBM, C64)

Description

SubLOGIC Scenery Disks are an enhancement designed to expand the potential flying environment of Flight Simulator II and other SubLOGIC flight simulation programs. Each disk covers a geographical region of the country and includes the major airports, radio-nav aids, cities, highways, rivers, lakes, mountains, etc. located in that region. You must have Flight Simulator II, Microsoft Flight Simulator, or Jet in order to use a Scenery Disk.

Development

Twelve separate Scenery Disks covering the entire continental United States were developed from NOAA (National Oceanic and Atmospheric Administration) Sectional Aeronautical Charts and Airport/Facility Directories. These charts divide the United States into 37 different sectionals. Each sectional chart includes all airfields and radio-navigation aids located in the area covered. Sectional charts also show topographical information and obstacles that are important to navigators.

Dallas–Ft. Worth

Features

Each Scenery Disk includes enough radio-nav aids and visual scenery to allow the user to navigate anywhere in the sectional areas covered. A typical Scenery Disk (SD) covers three aeronautical sectionals, and includes approximately 100 airports and 100 radio-nav aids. Any of these SD's are ideal for simulating cross-country flights. Each SD package comes complete with appropriate sectional charts, plus full airport and nav-aid directory listings.

Albuquerque International Airport

Kansas City

1. Dallas-Ft. Worth
   Houston
   San Antonio
   Brownsville
2. Phoenix
   Albuquerque
   El Paso

    New York

STAR Scenery Disks

In addition to twelve regional U.S. Scenery Disks, a number of STAR Scenery Disks are also available. STAR Scenery Disks cover a small area with a relatively dense amount of scenery. These disks are primarily intended for visual flight (sightseeing). They include buildings and landmarks as well as detailed renditions of the major airports in the area.

San Francisco International (STAR SD)

Golden Gate Bridge (STAR SD)

Bay Bridge (STAR SD)

Ordering Information

SubLOGIC Scenery Disks are available individually for $19.95 each. Six-disk sets covering the entire Western U.S. (disks 1-6) or Eastern U.S. (disks 7-12) are available for $99.95 each. Each six-disk set includes a vinyl three-ring binder with dividers to help keep your maps, disks, and directories organized.

If your dealer doesn't carry the Scenery Disk you want, you may have him order it or you may order directly from SubLOGIC. For direct orders please specify your computer system and indicate which disk or disk-set you want. Enclose the correct amount plus $2.00 for shipping ($5.00 for a six-disk set) and specify UPS or first class mail delivery. Visa, MasterCard, American Express, and Diners Club cards accepted.
